CI/CD

Senior Full Stack Developer with 5+ years of comprehensive experience in designing, developing, and deploying enterprise-grade web applications. Proven expertise in PHP, Laravel, CodeIgniter, and modern JavaScript frameworks with strong capabilities in server administration. Successfully transitioned from individual contributor to technical team lead, currently managing government projects for Tamil Nadu State. Demonstrated ability to handle complete SDLC independently and deliver scalable solutions.

PROFESSIONAL EXPERIENCE

Senior Software Developer (Team Lead)

In22Labs (Unwind Learning Labs Private Limited)

December 2024 - Present

- Leading development team for Tamil Nadu Government projects, managing end-to-end project lifecycle and team coordination
- Architecting enterprise-level e-governance platforms and government inventory management systems
- Building custom CMS with advanced dashboards for state government departments
- Managing production servers including configuration, deployment, and maintenance of Linux infrastructure
- Integrated secure payment gateways (Razorpay, PayU) within booking modules
- Developed Python automation scripts for file processing and scheduled database operations
- Implemented push notifications, SMS gateway integration, and database triggers
- Conducting code reviews and mentoring junior developers

Key Projects:

- TN Government Inventory Management Portal (Laravel, MySQL, Vue.js)
- E-Governance Service Delivery Platform
- Multi-tenant CMS for Government Departments

Senior PHP Developer

Innoblitz Technologies Systems Private Limited

March 2023 - November 2024

FRONTEND

HTML5 CSS3 Bootstrap
Tailwind

EDUCATION

B.Sc. Physics (67%)

RVS Kumaran College
2017 - 2020

HSC (83%)

Thanthai Hans Rovers School
2016 - 2017

LANGUAGES

English Tamil

- Independently managed multiple concurrent projects with full ownership (Solo Performer)
- Developed comprehensive CRM, HRM, and inventory management applications
- Built QR code generation and scanning systems for logistics tracking
- Designed RESTful APIs for mobile applications and third-party integrations
- Optimized backend performance reducing query execution time by 60%
- Implemented sales tracking dashboards and automated inventory solutions
- Managed client communications and translated requirements into technical specs

Achievements:

- Successfully delivered 8+ projects independently within deadline
- Improved application performance by implementing Redis caching
- Reduced bug reports by 40% through comprehensive testing

Junior PHP Developer

ITPS Tech Info Private Limited

January 2021 - February 2023

- Developed modular CRM and HRM applications with inventory management (Solo Performer)
- Built API-driven web applications following MVC architecture
- Contributed to multiple projects simultaneously maintaining code quality
- Implemented user authentication and role-based access control (RBAC)
- Collaborated with cross-functional teams using Agile methodology
- Maintained legacy codebases and performed bug fixes independently

KEY ACHIEVEMENTS

- ✓ Successfully leading team for Tamil Nadu Government e-governance initiatives
- ✓ Managed 15+ enterprise applications from conception to deployment
- ✓ Improved server response time by 70% through infrastructure optimization
- ✓ Zero critical bugs in production for government projects under leadership
- ✓ Recognized for exceptional client handling and requirement gathering
